objective

My objective is to obtain a web developement internship that will challenge my abilities as a developer and leader. I want to expand my knowledge of programming and problem solving.

experience

Launch School Full Stack Immersive

New York, NY   August 2016—Present

Full Stack Development. Used Mastery Based Learning to study complex full stack development skills. Built several projects and simple web applications with front and back end technologies while also creating and maintain databases. Collaborated with other students to create open source material.

Freelance Web Developer/Web Development Student

New York, NY   January 2016—Present

Web Development. Created an extensive multi-page portfolio site for a graphic design client. I garnered experience with web-hosting sites and simple servers, such as Apache. I improved my programming and web development skills through various self-motivated projects.

ATI Physical Therapy

Seattle, WA   July 2015—August 2016

Exercise Specialist. Honed my communication skills as I interacted with patients and worked with them on their exercises. I wrote detailed analysis for each patient that I sent to the physical therapist. Organized and maintained electronic medical records.

AmeriCorps National Civilian Community Corps (NCCC)

Denver, CO   October 2013—July 2014

Corps Member. Worked collaboratively on a ten person team to complete a range of projects, including combating wild land fires as a firefighter and tutoring students in impoverished communities.

featured projects

RubyTutor

February 2017   github.com/sunny-b/RubyTutor

A Ruby Gem meant to help beginners get used to the language.

Iris Sprague Portfolio Site

March — May 2016   irissprague.co

A portfolio site I built for an award winning graphic designer.

skills & languages

Full-Stack development, HTML, CSS, JavaScript, jQuery, Ruby, Rails, PHP, Linux, Git, Strong Communication Skills, and Film Photography.

education

University of Washington

Seattle, WA September 2009-December 2012

Bachelor's Degree in Oceanography Minor in French
GPA: 3.8 – Cum Laude
